## **REVIEW OF HEALTH PSYCHOLOGY 8TH EDITION SHELLEY E TAYLOR**

- I first read this book when I was around 13 years old, and I have read it over and over again for almost 30 more years. The story is timeless, the writing lucid, the characters unforgettable. It also takes me to a time and a life I never experienced. An absolute must-have for every bookshelf!

- I was planning to use this audio for a reading class. It is a pretty big set of DVD's and DVD #1 is missing. I contacted the dealer and got no resolution. I just wanted the first DVD, or a new set, but it was his only one. It was sealed so it had to be originally packaged with that DVD missing.
