### **REVIEW OF PLUMBING PIPING LEGEND GENERAL DEMOLITION NOTES**

- The author makes a case for inhabitants of the Americas being at least as socially evolved and perhaps more numerous than Europeans. It was technology and the diseases we brought from Europe that allowed us to overcome them the way we did. It also discusses the management of the land, as opposed to the "pristine wilderness" that was evident. Good read with some interesting ideas.
- This is a very well written book and is an eye-opener regarding the culture clashes between the aboriginals of America and the colonizing Europeans. It dispels many of the historical myths that we were taught in school.
