REVIEW OF ANALYSIS DESIGN OF FLIGHT VEHICLE STRUCTURES SOLUTION

- I found it interesting to see how the story changed during the play. First I thought the visit of Blanche was just a normal one. But I found out, there is a lot more about it, it has probably been an escape from her old place. But the rumours follow her to New Orleans. More and more the story gets strange and Stanley becomes the person responsible for what happens. This I found well done. The end, when Blanche is taken to the lunatic asylum, fits very well with the rest of the plot.
- Tennessee Williams' play, A Streetcar Named Desire, has been continuously named one of the greatest dramatic plays ever written, and rightfully so. The play's raw honesty of the late 1940s' lifestyle is compelling, and Williams' refusal to "gloss over" the hard truth is as refreshing as it is shocking. His well-developed use of foreshadow also brings depth and interest to the plot line. Though many moral lessons can be learned from A Streetcar Named Desire, I do not necessarily believe that it was Williams' intent to focus on a particular way to convey a certain morality statement. He simply used his play as a means to display the truth of life: that sometimes it's good, sometimes it's bad, and there are many things about it that we cannot change. Williams portrays the characters as they are, with no attempt at hiding their faults or virtues. Stanley Kowalski is a prime example. He's a hard laborer who takes what he wants in any given situation and doesn't care who he steps on to get it at that moment in time. However, he is not without his good qualities. Though he is somewhat of a brute, his love for Stella is true, and his devotion to his friend Mitch is honorable. The character of Blanche displays the fact that life and past experiences cannot be escaped or erased, and attempting to do so only produces the opposite effect. Blanche's efforts to

modify her past and hide her age lead not only to her psychological death but ultimately her physical as well. Williams' life and personal experiences are also incorporated into the play, communicating a honesty and realism that was, and still is, rare on stage. The heavy reliance on alcohol and the presence of physical abuse were both very real in Williams' life from childhood until his death. The character of Blanche suffers from psychological problems, just as his own sister Rose did, and Williams' homosexual lifestyle is even incorporated through Blanche's homosexual husband. To put it simply, Williams shows how life is life, and very rarely can it be changed. Yet, without the "bad things" in life that we have to go through, we would never appreciate the good ones as much as we do now. During a class discussion, the question was raised of whether or not Stella was right in returning to Stanley after he hit her. At first, I was certain that, if I had been in that situation, I would not have returned; at least not without some sort of counseling and certainly not by myself that same night. However, as the discussion went on, I became more and more doubtful of my answer. Throughout the play, it is obvious that Stella loves Stanley, and she herself admits that he is basically irresistible for her. I wondered that if I truly felt that way about someone, if I would really be able to stay away when "Stanley" is calling me back. This caused me to realize that it is very difficult to assert what you yourself would do in a situation before you have actually lived through it and been faced with the problem of choosing what path to take. Of course, speculation and discussion are all very important beforehand, but, when it comes down to it, those speculations are just that: speculations. We never really know for sure how we will respond until we actually have to do so. Perhaps Stella felt as I did before Stanley had ever hit her; that she wouldn't go back to a man that abused her in such a way. However, when she was first faced with going back or not, she decided to return. Her original speculations were left behind and she made a choice to move on without them. I would highly recommend the reading of this play. The story is different because it's true and not watered down at all, and its difference makes it great. The foreshadow and amazing use of stage directions cause the reader to think and form opinions or predictions, which, in turn, keep the reader interested. Aside from the literary elements, the play is terrific because it captures what life was really like for many people in the late 1940s, and shows how they dealt with it differently. It is no exaggeration when Tennessee Williams is attributed with writing a one-of-a-kind classic.
