REVIEW OF FAA H 8083 30 FAA HANDBOOKS

- A simple love story about turn of the last century English society and individuals set in Florence, Italy. This classic is well-written, engaging, rich and moving. The conflict between social norms and individual behavior is well illustrated. The characters develop through the chapters, becoming familiar and human, even if they are not all lovable or psychologically deep. The limitations of being too conformist, aspiring or rational are shown. The heroine, Lucy, seeks personal growth through travel, experiences and music. She is unsure of herself as she grows, unsure of where she wants to go or how to get there. Yet, through the simple act of showing up and having a small amount of self-confidence and self-awareness, she does grow and achieve some of her ends. Forster's writing style is appealing and approachable. Both the particular details and the eternal themes resonate a century later. As noted by the critics, the plot is a bit erratic at times and relies upon improbable coincidences to weave the ending. Nonetheless, this is an easy read with several layers of depth and meaning.

- An excellent set. Goes into more detail than you probably knew existed on all the major subjects in physics from Newtonian to Modern Physics.
