REVIEW OF CK USB 04A IQRF

- In the rational future world of the One State, life is perfect under the benign rule of the Benefactor. D-503, a mathematician, is building a ship called the Integral, which will spread logic, reason and "happiness" to the rest of the universe. As D-503 quotes from the One State Gazette: "If they fail to understand that we bring them

mathematically infallible happiness, it will be our duty to compel them to be happy."D-503 suffers from a terrible sickness: he is afflicted with a soul.The One State is a mathematically structured, artificial environment where life is sterile, spartan and mechanical. Buildings are all made of glass, citizens (numbers) have to march in time to the anthem of the State. At regulated mealtimes they also chew their artificial food in unison.One of the strange things about D-503's life is that he believes his world is enviable. Just as we look back at our own history with an amazed shudder of disbelief, so too does D-503. His society has done away with

horrible things like hunger, love and freedom in order to experience happiness. Even so, there are still a few "enemies of happiness" among the numbers who are publicly liquidated by the Benefactor's Machine. Although this is the book that influenced "1984" I only heard of "We" about two years ago, when I saw its name mentioned in one of Anthony Burgess' novels. ("1985".) D-503 writes the book in a series of entries, in a style that reads almost like poetry. (Although D-503 says he has no gift for poetry.) I can imagine the narrator's voice sounding dull and lifeless. As someone who puts great value on privacy, I find the idea of living in a glass house completely

repulsive. The influences on "1984" are obvious: The Benefactor = Big Brother, the Guardians = the Thought Police, the One State = Oceania. But even though "1984" enjoys wider recognition than "We", there is no doubt that Yevgeny Zamyatin's novel is the definitive bleak future; the template for all dystopian novels.

- Most of the book was fine, but the end section was a poor conclusion to the book, and the series. (WARNING! Specific plot details follow!) Just so readers are forewarned, the Emperor is never explained, and he gives a strange quasi-religious statement about himself. Here it is, verbatim: "Some long ago have called

me the Sabbath, or the Covenant--Some have called me Wisdom. Some lately have said that I am the Program of Creation."Has Saberhagen found Christianity, and he's trying to inject it into

his fiction? What the heck is he trying to get at, here? Beats me, and the book left me scratching my head and wondering what happened to this gifted writer.
