And if you ever before need help locating the best publication, our experienced staff is right here to offer tailored suggestions.

REVIEW OF FIBONACCI AND LUCAS NUMBERS AND THE GOLDEN SECTION THEORY AND APPLICATIONS DOVER BOOKS ON MATHEMATICS

- I didn't fully appreciate this book until I had read it the second or third time. I had enjoyed the first book so much that I think my expectations were much too high for this one. Rather than sweeping along in the same high vein that ended the first book, this one moves at a very deliberate pace. There are some great stand-out moments in this book: We meet the formidable Sivan Sanche, Lan takes over the role of male mentor for Rand, the Black Ajah makes an appearance, the Seachan invade, and the Horn of Valere is found. This book is nicely plotted and moves to a great, tension filled climax. It doesn't disappoint.

- Slightly shorter than Eye of the World, but slightly faster paced, the Great Hunt matches the bar set by the original and drives the story forward. The two things about the Wheel of Time that I enjoy the most are probably the characterization and the worldbuilding. The various cultures and lands are well-fleshed out, and Jordan develops every place that the heroes stop by on the adventure. Shienar was an excellent example, along with Tar Valon. The characters are at a high caliber, the writing is well-done and descriptive, the story is excellent, the plot is slightly tighter than the first book, and Jordan manages to incorporate some of the grit of real life without turning this into an R-rated book. . . . Though I admit it would probably have been better if he had. ;) Minor bits of goodness mixed in include: The concept of the Heron-mark is cool, the characters' magical powers actually progress over time (Are you listening, Terry Goodkind?), the plot is complex and requires intelligence to keep up with, no ham-handed messages or foreshadowing, realistic take on learning and using swordplay, and some definite moments of hilarity. Sad to say, there are still a couple of problems. Some of the female characters are starting to get on my nerves, particularly Nynaeve(sp?), who never develops out of playing the part of the stubborn, bitchy, bullying manhater. (I'd also like to know what strange problem is inducing the female characters to "sniff" every few chapters.) Egwene is working her way up there, too, though she's not very annoying compared to Nynaeve. It would be safe to say that Elayne Trakand is probably the best female character at this point. Unfortunately, her viewpoint is pretty much absent from this book. The plot is good most of the time. There are a few definite places where it moves along a bit slowly, though it is an improvement from the first book. I have the same problem with the Wheel of Time that I do with the Song of Ice and Fire; there are too many damn chapters where we're taken away from the action and getting into the heads of random people along the way. If an author does this, then we should at least be taken right into some tense excitement somewhere. I don't really care about Bayle Domon mulling things over while gloating over his cuendillar collection, or some exotic goons from across the sea arriving to take over villages and make them swear oaths of loyalty. Can we get back to Egwene/Elayne at the White Tower and Rand/Mat/Perrin hunting the Horn, please? The plot is wonderfully structured and engaging and all, with a better resolution than the first book, but that sometimes makes the interruptions all the more annoying. The Great Hunt is at times frustrating, but patience is rewarded with a great storyline and characters, especially in the two books following, where the action really heats up. I give the Great Hunt a solid 4 stars out of 5.
