Generally, our analysis of Runaways Comic has actually supplied us with a rich understanding of the narrative and its literary capacity. We highly recommend this publication to viewers who are looking for a thought-provoking and psychologically impactful read.

**REVIEW OF RUNAWAYS COMIC**

- Bradbury's prophecy of a distant (or not so distant) future is essential reading in these times of self-censorship through the dumbing-down of the national dialogue. The story seems to peter out at the end, but as a plot device it succinctly allows for the discussion of numerous topics that have 'come true', at least nearer to true than the time of the original publication. For instance, listen to Beatty's history of book-burning that encapsulates a media-saturation and political sensitivity (p. 54). Or perhaps you're intrigued by the dead-on Hubris Americana Montag bemoans in the post-war period (p. 74)? Faber's recollection of a Jesus before merchandising rings as a true indictment of the modern church (p. 81) - and his threefold explanation for the importance of books (quality of ideas, leisure to think, and freedom to act on the preceding two on p. 83) should be carefully considered by all of us as we rip through our reading lists. This book delivers an impact, and is well-worth the read.

- I just finished reading this book for the third time and it simply gets better with age, like a vintage wine. How can we picture a world where there are no books, particularly novels? Like most of us on Amazon, I'm a voracious reader and have been since I was in elementary school. Books transport us to another world and allow us to have insight into lives, situations other countries that we may never otherwise experience. Good books pose tough questions about ethics, coping with adversity, and dealing with loss, sorrow or facing hard choices -- for example, Sophie's Choice, when she had to choose between which one of her children she would save from the Nazis. When I was 19 and I first read this book, I thought it was just about banning books. I didn't fully comprehend the depth of mind control that would be involved in restricting information, and consequently creating a reality that is so sanitized that it bears no resemblance to real life. No wonder people were glued to the flatscreen TVs and hooked on mood altering substances to get through the day. As always, Ray Bradbury does a fantastic job of making us think long and hard after we put this book down. The video version is also quite good, but I sometimes had trouble making out people's accents, and it was created in the days before subtitles were available. Altogether, a terrific read that bears rereading over the decades.
