REVIEW OF 6D22 ENGINE PART CATALOG

- This book gives an inside look into some of histories most watched cases. Written from the perspective of those on the inside you get a look into what its like to have to deal with these horrors first hand.

- This book is incredible. A masterpiece in graphic literature. The art is superb and is perfect for this story which I found hauntingly familiar. The perfectly drawn facial expressions bring the characters alive. The story will grip you and

stay with you for eternity. The editorial review that says, "this story is beautiful but will utterly break your heart" is SO right on. Everyone needs this. I wish I knew if this artist had any other graphic novels out? I'd like to thank the first Amazon reviewer as his (or her) review convinced me to buy it. Now it's your turn. I assure you that it will be one of the best ten bucks you ever spent.
