## REVIEW OF DOMINO A100 MANUAL TOUCH

- i thought this book was the dumbest book i have read in a long time. i hated it. i found it very hard to get into with all the characters listed in it. i would give it 0 stars if i could.

- The lord of the rings trilogy was just straight and flat out boring. I hated those books so much that I couldn't describe. The hobbit, however, is ten times better and actually has some good stuff and action scenes to it. The whole thing is interesting, since the plot is very unique, and also the characters are richly and warmly developed. This is the stuff that good fantasy is made out of, and I don't know why Tolkien changed his writing skills when he wrote lord of the rings. Anyways, this book rocks. It's a great book to read next to the fireplace on a rainy night inside your home, and the paintings which are held inside this book, (In other words what Tolkien describes and how he describes it) Is simply and positively extraordinary and different from all other books that I have read, and I've read lots of books. Anyways, get this book. At first, it didn't really seem interesting. But a lot of great books don't immediatly start out interesting. But after the slow parts, it's like a roller coaster. The lord of the rings, however, was slow all the way through. I'm surprised that people even manage to read all three installments.Anyways, this book is great. Many other authors have copied Tolkien and just came out with pale imitations. This is the original fantasy book which started the entire genre of good fantasy epic novels. Read this book. It's excellent.
