REVIEW OF 4E FE ENGINE

- This is by far the best of the Scarpetta mystery novels. It alone deserves to

remain in print for any appreciable amount of time. Everything in the series after this is likely to be anti-climatic. But the fact still remains that Scarpetta needs to get a life. She still hasn't learned how to realistically deal with her enemies. Scarpetta is herself paranoid and no wonder: she insists upon setting back and letting things get out of control. Her efforts at hitting back are at best misguided, ineffectual and misplaced.

- I enjoyed every minute of this book! It is one of those you just can't put down. I encourage everybody to read this and all of her books!
