REVIEW OF HUMAN RESOURCE MANAGEMENT 6TH EDITION

- If you invite the missionaries in, they will not tell you their true beliefs about their god being a man just like we are and that he worked his way up to being a god and that if they work hard enough, they can be a god too. How can anyone believe someone who is deceptive in the beginning of their meeting?

- Forester's day has come and gone. This book is interesting to read from a historical perspective but has little practical value in the second decade of the 21st century. Newbies who need real world information about transportation cycling should start their quests elsewhere and save their money. Forester spends many pages stuck in boring old git mode. I am from the same generation as JF and even I find him often insufferable. His over the top, my way or the highway opinions are largely unhelpful to novice knowledge seekers, IMHO.
