**REVIEW OF THE SECRET RIVER BY KATE GRENVILLE**

• As a child I would stare at the Gammell's illustrations while re-reading each story over and over. The illustrations made this book much more imaginative and influential in my opinion. The new illustrations do not do this beloved set justice. I am extremely disappointed to find out that the original is out of print. Don't buy this for yourself or your kid. I loved these books so much when I was a kid, that I am actually going to write a letter (ON PAPER! with a stamp!!) to Harper Collins telling them about the role that crazy art had on my imagination and development as a creative person. Jeez. Absolutely terrible, the new illustrator must have no dignity to ruin this.

• I used this book as a supplement to my statistics and QA courses. The book is pretty well written and points out some great examples of the misuse of statistics.
