REVIEW OF EDDY CURRENT INSTRUMENTS AND SYSTEMS IS ELOTEST 3 NEW

- The main character does nothing but whine throughout the whole book, it is irritating. The narrative drifts in and out from the topic at hand which would be fine if there was some relevance I literally skipped over paragraphs of unimportant drivel. Save yourself some time hang out at the mall if you want to hear real high school angst or whining this was just self absorbed dull wannabe teenagers.

• No one should ever promise that high school, public or private, will be the best four years of your life. If they did, they were lying. Middle school through high school is an example of survival camp. PREP captures the plight of a dysfunctional teen who wants to fit in but doesn't know how. There are more Lee Fioras in high schools than there are Aspeth Montgomerys.
