Energies is open to submissions for a Special Issue on "Renewable Energy Production from Energy Crops and Agricultural Residues". Biomass represents an important source of renewable and sustainable energy production. Its increasing consumption is mainly related to the increase in global energy demand and fossil fuel prices, but also to a lower environmental impact compared to non-renewable fuels. These factors take RED II directives into consideration. In the past, forestry interventions were the main supply source of biomass, but in recent decades two others sources have entered the international scene. These are dedicated energy crops and agricultural residues, which are important sources of biomass for biofuel and bioenergy. Below, we consider four main value chains: • Oil crops: Oil production from non-food oilseed crops (such as camelina, Crambe, safflower, castor, cuphea, cardoon, etc.), oil extraction, and oil utilization for fuel production. • Lignocellulosic crops: Biomass production from perennial grasses (miscanthus, giant reed, switchgrass, reed canary grass, etc.), woody crops (willow, poplar, Robinia, eucalyptus, etc.), and agricultural residues (pruning, maize cob, maize stalks, wheat chaff, sugar cane straw, etc.), considering two main transformation systems: 1. Electricity/heat production 2. Second-generation ethanol production • Carbohydrate crops (cereals, sweet sorghum, sugar beets, sugar cane, etc.) for ethanol production. • Fermentable crops (maize, barley, triticale, Sudan grass, sorghum, etc.) and agricultural residues (chaff, maize stalks and cob, fruit and vegetable waste, etc.) for production of

biogas and/or biomethane.

The process of migration control mirrors the trajectories of the people who traverse national boundaries, making today's borders flexible and fluid. This book explores the transformation of migration control in the post 9/11 era. It looks at how border controls have become more diffuse in the face of increased human flows from Africa and presents a critical analysis of the dispositif of

European migration control, including detention without trial, derogation of human rights law, torture, "extraordinary rendition", the curtailment of civil liberties and the securitization of migration. By examining the role of Gaddafi's Libya in the last ten years as a gendarme of Europe, it argues for a re-visioning of borders and frontiers in ways that can account for their dialectical nature, and for the dialectical nature of political life. This text will be of key interest to scholars and students of European studies, African studies, security studies, international relations, global studies, comparative politics, cultural geography, migration studies and border theory.

Among the world's hotly contested, obsessively controlled, and often dangerous borders, none is deadlier than the Mediterranean Sea. Since 2000, at least 25,000 people have lost their lives attempting to reach Italy and the rest of Europe, most by drowning in the Mediterranean. Every day, unauthorized migrants and refugees bound for Europe put their lives in the hands of maritime smugglers, while fishermen, diplomats, priests, bureaucrats, armed forces sailors, and hesitant bystanders waver between indifference and intervention—with harrowing results. In *Crimes of Peace*, Maurizio Albahari investigates why the Mediterranean Sea is the world's deadliest border, and what alternatives could improve this state of affairs. He also examines the dismal conditions of migrants in transit and the institutional framework in which they move or are physically confined. Drawing on his intimate knowledge of places, people, and European politics, Albahari supplements fieldwork in coastal southern Italy and neighboring Mediterranean locales with a meticulous documentary investigation, transforming abstract statistics into names and narratives that place the responsibility for the Mediterranean migration crisis in the very heart of liberal democracy. Global fault lines are scrutinized: between Europe, Africa, and the Middle East; military and humanitarian governance; detention and hospitality; transnational crime and statecraft; the universal law of the sea and the thresholds of a globalized yet parochial world. *Crimes of Peace* illuminates crucial questions of sovereignty and rights: for migrants trying to enter Europe along the Mediterranean shore, the answers are a matter of life or death.

## REVIEW OF IVECO TRAKKER

- I found this story to be down right sad and evil. I'm not so sure I want our youth reading this as required reading in schools. What is one to get out of this? That man can't control himself when left alone on an island and that all we can do is harm each other. Great writing factually, but horrible plot. I'm giving this one a 1 star. Next.

- Some people were right about how the author tends to go on and on and on, yapping about trees, rocks, sand, etc. on the island. In the novel, the descriptions were too monotonous and I did not notice that I was skipping vital parts of the book that were hidden between tedious plant matter...But once I started re-reading certain parts of the book, I've realized why the book won that prestigious whatever-its-called prize. It really did tell of the horrors of humankind that outweigh the good, and its symbols were powerful, especially the lord of the flies character. The character I admire the most has to be Simon. Then maybe Piggy or Ralph. But Simon is a symbol of the good of human nature. Simon helps the "lilluns" reach the fruit, he gives Piggy his meat, and admires nature in his special spot in the island. He represents human instinct, but not the bad kind, not the one of selfishness and savage, but of goodness and kindness to everything as a whole. The sad part is that there aren't many people like Simon, and in the end, he is taken over by the evil, the "darkness", the "beast" that exists in the savage kids, and essentially in everyone. And sadly, before he could tell everyone his discoveries. What I find quite strange is that in the end, the savage tribe is saved by their own device. That's funny, and it didn't really seem fitting to the book's nature. But it worked to its advantage, as it signifies the loss of innocence in the boys. When people say that this book is unrealistic, I ask them, "Well have you ever got stuck in an unknown island with a bunch of kids you don't know for a couple of months?" The children in the island represent society. Using children as a symbol only makes the effect of the novel stronger. A society that would rather listen to their instincts than reason (Piggy), the book plainly displays the darkness and evils of mankind in a nightmarish and cruel way, and perhaps that's why some people refuse to accept the main ideas of the book.
