REVIEW OF NISSAN NV 400 SERVICE MANUAL

- I'd studied physiology and neuroscience, later switching careers from a medical path to that of a designer. I've dived into many sources for my self-education/training. Itten is the grand-master of color; no other book I've read compares to those of Itten. His teachings have enlightened me in ways that I'm amazed by, touching on scientific, psychological, behavioral, and the most

personal aspects of color as a study and an experience. It's changed the way I look at my environment, and it's changing the way I use color in my work as a designer. I'm so impressed with the value this book has had to me, that I bought Itten's book on Form and Design, even though I didn't necessarily feel lacking on those aspects of design. It's rather because of the likelihood in

the quality and richness of knowledge I'll gain, as I did from this book.

- Mindless, stupid, unsophisticated and sexist junk featuring the "oh so californian sweethearts" on the world's biggest quest: to find a dress for the school prom. Quite a disgrace to young adult books. Pure nonsense. What a joke
