Remember, reviewing testimonials can help you make educated choices regarding what to review next and can reveal you to new writers and genres you might not have actually taken into consideration previously.

REVIEW OF API DI BUKIT MENOREH VERSI FLAM ZAHRA

- Loved this book. I'm a newbie to golf, and this book was full of charm. It's not going to really teach you how to golf, but it will teach you to appreciate the intricacies of the game, and a great personality in it. Plus, it will inspire you to practice, because Hogan was a true student of the game. And that never hurts.

- I had a hard time trying to come up with a concise rating and review of this 2-in-1 book. On the one hand, Nietzsche sums up and elucidates some fantastic points about the general state of Christian morality and Church teaching (and thus about the human tendency to "hate thyself and one's own nature"). On the other hand, he does appear to suffer from some misunderstandings concerning some particulars of Christianity and Buddhism, worsened to say the least by rampant generalizations and a notable lack of syllogistic explication. Nietzsche definitely broke ground with many of his other contemporaries of the Modern Era in Western Philosophy by not working in syllogisms and theoretical tabulations. Nietzsche is a man who passionately makes stabs at his opponents without worry of backlash or micrological scrutiny. And this is what makes these two works so fun to read! Twilight of the Idols is basically a summation of many of his ideas - anyone wishing to gain an overall sense of Nietzsche's position on humanity's relation to the world and itself would do well to read this work. The Anti-Christ is his most ferocious attack on institutional Christianity and it's many hypocrisies. I believe the material still holds relevant today, not as an affront to Jesus' teachings, but on the establishment and growth of Paulism over the last two millennia. Anyone who is looking to get a good sense of Nietzsche's philosophy and/or a dynamic view of religious law-practice would do well to read this pair of essays, bearing in mind that generalizations run rampant in his writing. I myself found this to be an enjoyable read, although I noted some inaccuracies in content.
