REVIEW OF BLOOD VESSELS QUESTIONS AND ANSWERS

- Overall I enjoyed this book. Yes, much of the book was unbelievable, and how Jack Halder and Rachel Stern continued to elude capture throughout the book was a bit overdone. I overlooked these factors, however, and just tried to enjoy the storyline and the thrilling conclusion. The characters, both heroes and villains, were very interesting and the setting was exotic. If you are looking for history, forget it. However if you enjoy espionage thrillers, particularly those set in WWII, this may be for you. A bit of advice, don't overanalyze. Just relax, the story will take you along and give you an enjoyable and thrilling ride.

- The book is not bad, but the Kindle version is full of typos, about one per screenful. I'm guessing the book was OCRd badly. The result is hard to read.
