REVIEW OF CONSTRUCTION CIVIL ENGINEERING BOOKS

- Gone With the Wind, by Margaret Mitchell, is an amazing book based rural Georgia from the Civil War antebellum to Reconstruction. Scarlett O'Hara begins as a sixteen-year-old belle of the county, but ends up facing perils the kind of which she could never imagine. In the book, love holds Scarlett together, but in the end fails her. Mitchell's style is unique and distinguishable. The moral value of this book is unusually displayed by the contradictions to it made by Scarlett. I loved reading about Scarlett's relationships with her friends and, more interestingly, her enemies. Though it is sometimes difficult to like Scarlett, it is impossible to ever hate Mitchell's messages throughout this amazing epic novel.

- The summer I was 15, between Junior High and High School, my mother recommended that I read this book. Of course I wasn't going to listen to HER...so I pouted around for a few days, and then one evening, afraid I was going to succumb to utter boredom, I picked it up. For the next week, I did nothing but read Gone with the Wind. I read it every waking moment, far into the night, first thing in the morning. I remember having a perpetual headache from eyestrain. I simply could not stop until the last page, when I burst into tears, and sobbed for what seemed like hours. The book has much the same effect on me now. Every few years, I read it cover to cover, even though I can quote key passages by heart by this time. So let me tell you a little bit about Gone with the Wind, the first thing being that it is not what you think it is. It's hard to compete with David O'Selznick here, even though he's dead, but I beg you to put the movie aside, and prepare yourself for sheer, satisfying, bosom-heaving pleasure. This was a thoroughly amazing book in the thirties, and it wears well. It is much more than the story of spoiled, willful Scarlet O'Hara and her deadly flirtations. Scarlet may have been the first feminist. Women in her day had no power whatsoever. Their entire lives were decided by convention: whom they should marry, what they should eat, where they should live, what they should wear. But Scarlet would have none of it. And the only way she could break free of convention was to use her wiles to flaunt it. She did--and it worked. She was and is my hero, selfish and vain as she was. On quite another level, this is the heartbreaking story of the War Between the States from the Southern point of view. As a teen who was raised in California, I had no clue about

how the South felt about the War, and no way to find out. This book, silly as some may find it, taught me that there are two sides to any conflict, two equally powerful and opposing points of view that are tragically at odds. Sound familiar? Not much different than the Middle East today. Now a word about the book's purported racism. Yes, there are slaves in this book, and I am not going to presume to tell you not to resent or be angry about that fact. But considering the time in which she lived, I think that Margaret Mitchell tried to deal with the issue of slavery as best she could. The slaves in the book are not the simpering fools of the movie. They are portrayed with as much dignity as I think Mitchell could manage when considering that there was no way she could condone OR ignore that slavery was a fact during the Civil War. Mammy is not a caricature in the book, Prissy is a much

more sympathetic young woman, and the other slaves are portrayed as thinking, feeling, human beings. The Emancipation is not regretted, and is seen from the freed slaves' point of view as much as possible. That having been said, I am not advocating this book as something it is not. It is not an abolitionist work, and it is not anti-slavery per se. It is not anything more than phenomenally well-written story with a lot of truly interesting historical information about the 1860s and beyond. Gone with the Wind is the story of a lifetime, not the caliber of War and Peace, but for its time, incredibly good reading. Summer is almost upon us. This is a perfect time to sit under a magnolia tree with a mint julep and treat yourself to an old-fashioned story you'll never forget.
