REVIEW OF HARLEY DAVIDSON SERVICE MANUALS FLHX

- I was across the street from the Pentagon on 9/11 when Flight 77 became another painful event in a very long morning. All during that week and ever since I have hoped that some writer or historian would make it their goal to document the lives of the innocent souls who were on each and every flight. Mr. Longman has done an excellent job in bringing all of us closer to the names listed on Flight 93. The information and pictures concerning the hijackers was disturbing, but it was also helpful in understanding the ease and access our country used to afford to foreign nationals. It is my hope that Mr. Longman takes the time to research and complete one more book that helps us all remember and honor the innocent passengers and crews of the other three flights.

- The main character, Ernest Pontifex, is a pathetic weakling, variously oppressed and exploited by his parents and acquaintances. He fails at everything and relies on others to get him out of difficulties. The other primary character, Ernest's godfather (another "voice" for the author) spends his time despising Ernest's parents and saving Ernest. Yet, since this is an autobiographical novel, the author would have you believe that Ernest is actually a brilliant iconoclast whose writings disturb Victorian society. Humbug! Butler demonizes his parents so heavily (all the characters are cardboard, etched with bile) and is so smug about it, that he, not they, comes across as the Monster. Of Human Bondage, by H. S. Maugham, touches on some similar themes and is a vastly superior work. Anything by George Eliot would also be a vastly better read from 19th C. English literature.
