REVIEW OF INSTRUMENT ENGINEERS HANDBOOK LIPTAK

- This book was a great read. I read this book once in fifth grade, and again this year. While thinking into the book i

realized that The Giver is a great example of how society today is starting to mesh together. Everything seems the same. People are starting to look alike, dress alike, sound alike and even act alike. Shared memories are important to any and every culture. Parents and grandparents pass down stories of their past to their children, who will pass their stories on. This ritual has been going on since the beginning of time, and will continue forever.

- One of my favorite books ever read. The Giver challenges us to see the beauty that we take for granted and lets the reader discover it without feeding it to them. A must read.
