REVIEW OF GRANIT SPLIT D O O

- i love this book not only because roald dahl is my relative but because whn i find a good book i can not put it down and with this book my mum got up me for reading so much.
- A collection of 45 essays ranging in topics from natural rights, socialism, individualism, foreign policy, as well as many others, Frank Chodorov lays out these essays with impeccable reasoning and clarity making for an excellent read. Chodorov demonstrates

in his writings that he is an independent thinker who doesn't fit into the "left/right" paradigm with whom at times he is highly critical of. He doesn't use ad hominem attacks which is a relief, he just lays out the arguments in a straight forward logical manner which is quite refreshing given our day and age. Clearly in the writings Chodorov takes issue with the aspects of big communism, but unlike many conservatives who advocated combating communism through military intervention, Chodorov argues that communism should be judged on the merit of its ideas. Chodorov reasons that using force to combat communism you actually submit yourself to the same tactics used by the communists, such as suppressing speech, military intervention, etc. Also, in his defense of nonaggression Chodorov criticizes American Cold War policy which asserts that we must use military force to stop the advancement of the ideals of communism. In the essay Reds Are Natives, he asks how the United States plans to stop the spread of communism in America. First he analysis our techniques of military intervention and then applies that logic domestically showing how such a position is erroneous for both foreign and domestic policies. Chodorov also has interesting insights into the aspect of what is known as isolationism. He believed that an inherent feature of human nature was centered on the individual and localism. Chodorov thought that people were concerned more with their individual self and what happened locally which makes up "isolationism" instead of being concerned with the international community and policies. He cites the shift in thinking with the policies pursued by Wilson and his Mexican policy to help promote democracy, later taken up by Roosevelt. Wilson used the military force to help back Carranza and basically states that when you use force to undermine the position of the people of a given country, that tends to have an alienating affect upon the people who move toward a hostile position against you. How people can't see this truism which still continues as our foreign policy today is beyond me. With the shift in ideology from "isolation" to interventionism/internationalism, I believe that had a profound impact on our society as a whole. The individualism that once defined our society has transformed us to becoming mere statistics within a vast bureaucracy which I believe is dehumanizing. Other important aspects of the book include Chodorov's position concerning natural rights as well as taxation. He is critical of people who dismiss natural rights. His views of taxation are pretty straight forward, taxation is robbery. His essay on Henry David Thoreau is very interesting. Overall the essays are very insightful and easy to read. I highly recommend this book to anyone interested in independent thinking.
