REVIEW OF 747 ILLUSTRATED PROCEDURES GUIDE

- The plot involves Jack Burden, failed historian and fallen aristocrat, who has become a political hatchet man for a charismatic populist politician, Willie Stark, who believes that the greater good may be cultivated if well fertilized by the corruption of his friends and the carcasses of his enemies. Jack's duties include gathering weapons for use against those enemies, like biblical David before him, by gathering stones with which to fell the Goliaths of a more genteel, if scarcely less corrupt, plutocracy who formerly ran the state. But it is not the stones themselves that Jack gathers but rather the creepy

crawlies living underneath the stones unearthed that will eventually allow Jack to be so successful that tragedy will ensue for all, good and evil alike. This theme of raking through the muck of bygone days resonates with me as I first read this book as a youth some forty years ago and as I reread it I see my childhood and this book in a different light. But as I understand more of this book than I did upon first reading, I fear that one need not delve so deeply into the past to see the relevance of this book today and into the future. Although inspired by Louisiana's Governor Huey Long, one need not look to the thirties to see the type. Stark rather resembles a certain Arkansas governor of recent vintage whose wife, like Stark, attempted to redeem the family of its sins by providing free health care to the less fortunate. One need not squint too hard to see in Anne Stanton, that paragon of female nobility whose virtue could not survive an encounter with Willie Stark, the National Organization of Women who were only too willing to overlook the sexual improprieties, lies and corruption of their Willie Stark if only he pretended to respect them in the morning. Why, even the senator from Massachusetts may be glimpsed as Tom Stark drunkenly drives into a culvert ruining the life of a young lady companion with no consequence to himself, although admittedly Tom had the foresight to avoid plunging the car into water. Huey Long promised to raise Louisiana up out of the muck but mired it in corruption just as Willie Stark promised to raise a Louisiana-like state only to see it sunk into corruption. Now we see the results of an additional seventy years of Democratic good old boy (and girl) corruption in Louisiana as it struggles to blame others for its

failures of government to the detriment of the very people in pretends to help but, in fact, victimizes. So off we go into the future as the citizens of Louisiana and elsewhere continue to not only accept but to positively demand a snake oil salesman, well acquainted with his wares due to close family relations, to lead them into the promised land. Too bad that we, like Jack Burden, Willie Stark, and the rest, will find more venom than remedy from the fangs of the serpent we demand.

- Too bad Brinkley missed the boat with this pack of lies. Another piece of Kerry-esque: self-glorification, self-implied hero, self-promoting, self-gratifying, self-serving, self-seeking, self, self, self...self-Kerry, self-political-gaining script. Brinkley is a decent writer (I'd rate him higher if he hadn't done this book based on the pure trust of believing all the Kerry-inspired lies that history has shown us to be both (at minimum bordering on) traitorous and treasonous. Brinkley even has since admitted that he used Kerry as a lone source in some instances; only to learn later some information supplied by Kerry was as many have already called an embellished misrepresentation of fact (or should I say fiction?) Only God & Kerry knows; since his (allegedly "non-persuaded" \$) shipmates don't have a say here. If Brinkley coulda checked facts vs. potential for embellished fact or fiction, I'd put more stock in this piece of work. Since some things in this book & through much of Kerry's story occasionally turn out to later be deemed in error or lies; it just makes me wonder why John Kerry just can't tell the truth in the first place--always. We need a commander-in-chief who has integrity & is not always back-peddling to change

"fact" later turned up to be false.
