## REVIEW OF THERMODYNAMICS UPTU BY D S KUMAR

- This well-written, conversational and sensible book provides helpful advice for the perimenopausal woman. Addressing each of the major areas affected by menopause (hormonal, cardiovascular, cognitive/emotional, bone health), Ms. Taylor provides sound, referenced explanations and explores intervention options with the reader including evaluations of efficacy and safety. This book is the Honest Herbal of non-pharmaceutical menopause therapies. I whole-heartedly recommend it not only to women approaching/undergoing menopause, but to their families as well. Additionally, it is an excellent resource for health care practitioners working in the area of women's health who would like to offer their patients non-pharmaceutical intervention options.

- With a heavy helping of humor, Jennifer Crusie treats the reader to a fun and witty escapist romance. No, it's probably never going to happen this way, but it's fun, it's charming, and the dogs

will warm your hearts too. The Lucy character manages to be smart, cute, sassy and independent, which is a big improvement over some of the lame ladies in romantic fiction. Zach, as the macho policeman, is a bit much but able to be taught. Crusie also allows the reader a certain amount of

imagination when it comes to the lustier moments. This book might just be the answer for a cold winter evening.
