REVIEW OF PHYSICS PRACTICAL HANDBOOK 12TH SCIENCE TARGET PUBLICATIONS

- Wellllllllll its an OK book. The action is a bit slow at times, but its a smrt book that makes you think. the author does a good job with plot and detail. Many kids have to read this book for school so I wouldn't buy it before checking THAT scenario out.

- This book has such vivid details of an unfair world. Sure, everyone is employed, fed, and cared for, but our daily treasures - snow, family, choice - is gone. But when Jonas becomes the Receiver of Memory, he learns what life should be. This life is not the life that existed in his Community, but the life that existed before - and still should exist today.
