Codenamed "Valor" by the Secret Service, Rafa feels anything but brave as he hides in the closet and tries to stay below the radar in his last year of college. His father's presidency is almost over, and he just needs to stick to his carefully crafted plan. Once his family's out of the spotlight, he can be honest with his conservative parents about his sexuality and his dream of being a chef. It's definitely not part of Rafa's plan to get a new Secret Service agent who's a walking wet dream, but he's made it this long keeping his desires to himself. Besides, it's not like Shane Kendrick would even look at him twice if it wasn't his job. Shane's worked his way up through the Secret Service ranks, and while protecting the president's shy, boring son isn't his dream White House assignment, it's an easy enough task since no one pays Rafa much attention. He discovers there's a vibrant young man beneath the timid public shell, and while he knows Rafa has a crush on him, he assures himself it's harmless. Shane's never had room for romance in his life, and he'd certainly never cross that line with a protectee. Keeping Rafa safe at any cost is Shane's mission. But as Rafa gets under his skin, will they both put their hearts on the line? This gay romance from Keira Andrews is the first part of the Valor duology and features a May-December age difference, Jane Austen levels of pining, forbidden love against the odds, and of course a happy ending.

Part of John Muir's appeal to modern readers is that he not only explored the American West and wrote about its beauties but

also fought for their preservation. His successes dot the landscape and are evident in all the natural features that bear his name: forests, lakes, trails, and glaciers. Here collected are some of Muir's finest wilderness essays, ranging in subject matter from Alaska to Yellowstone, from Oregon to the High Sierra. This book is part of a series that celebrates the tradition of literary naturalists—writers who embrace the natural world as the setting for some of our most euphoric and serious experiences. These books map the intimate connections between the human and the natural world. Literary naturalists transcend political boundaries, social concerns, and historical milieus; they speak for what Henry Beston called the “other nations” of the planet. Their message acquires more weight and urgency as wild places become increasingly scarce.
