## **REVIEW OF BIOLOGY LAB CLONING PAPER PLASMID ANSWER CYPAGE**

- As an author with my debut novel in its

initial release, I am amazed by works like John Updike's RABBIT, RUN that seem fresh forever. Published originally over four decades ago, it captures its time and its place with utter accuracy yet the novel still applies to our society that has been transformed in many significant ways since Rabbit Angstrom first appeared on the literary scene. While he is destined for greater material success in Updike's later Rabbit novels, Rabbit is a salesman living a marginal life with an alcoholic wife in RABBIT, RUN. Brilliant prose stylist that he is, Updike spins a winning story about these characters, and it is a story that will seemingly survive upon the American literary landscape for as long as there are

readers of fine books.

- Wonderful story! Brenda Jackson's storyline about the Madaris' family is great and those Madaris' brothers are the Bomb!"Whispered Promises" is the story of Dex Madaris and the love of his life, Caitlan. Even though there is a 11 year age difference, they are in love. They are faced with problems, but through it all, they overcome the stumbling blocks and their love flourishes. Not only do we learn of Dex's and Caitlan's story, but Ms. Jackson continues to keep us informed of Justin and Lorren, Clayton and all the other Madaris' family and friends. Much love to Ms. Jackson.
