REVIEW OF KEYSTONE CREDIT RECOVERY ANSWERS EARTH SCIENCE

- Lot of useful reviews here. No one mentions Wolfe's 24-page introduction, 'Stalking the Billion-Footed Beast,' which is excellent in itself as an overview of the alleged death of the novel, The New Journalism, non-fiction v. fiction & his own evolution as a writer. The introduction is worth a read on its own if you're a journalism student, a would-be or actual writer or just interested in the publishing world. As for the rest of the book, it's excellent. Wolfe is a master of

the set piece, the extended vignette beautifully observing a situation or person. He is not so good at endings, which is why I picked four stars rather than five. I felt identically about his later "A Man in Full," and it didn't stop me enjoying the heck out of the book. If you enjoy his fiction, his non-fiction is well worth checking out as great examples of very controlled, observant reporting & writing. I particularly enjoyed "From Bauhaus to Our House," an extended essay about modern architecture, and "The Painted Word," ditto on modern art.

- If you like Lewis, this book is the cheapest way to get his best works. The only negative is the bulkiness of it. It is large and heavy so it needs to be in your lap or on a desk.
