Remember, reading reviews can assist you make notified choices about what to check out following and can subject you to new writers and styles you might not have considered previously.

## **REVIEW OF COMPANY ACCOUNTING 9TH EDITION LEO HOGGETT SOLUTIONS**

- Most of us have taken a trip down the Yellow Brick Road, whether through the MGM classic or one of countless literary

incarnations on the bookshelves. This version, by far, is the best. The reader actually travels to the Emerald City and beyond as its author L. Frank Baum intended. Mr. Baum put up the money himself to publish the first edition of "The Wizard of Oz," because no established company would touch a "modern" American fairy tale. As a result, few books were actually produced, but rarely has an author had such control over his finished product. Here's your chance to own a reproduced copy of his original vision! Books of Wonder has done an outstanding job with the whole Oz series, and the love and care shows on every page. If you ever enjoyed this tale of Dorothy and her friends, order away without reservation.

- In Ramona the Pest, Ramona starts

kindergarten. She loves school and her teacher but still manages to get herself in quite a bit of trouble. Beverly Cleary gets little kids. There is a scene where Ramona is throwing a tantrum in her room in which Ms. Cleary does a wonderful job of explaining the (irrational) thought process that is going on in Ramona's mind during the tantrum. I think little kids will find comfort in knowing that they are not the only ones who feel out of control at times. She also understands that children can be very literal and this often leads to misunderstandings and embarrassment for them. This whole book serves to help young readers know that they are not the only ones overwhelmed by the world and new experiences. My six year old son and I loved this book and we're looking

forward to the next Ramona book in the series.
