To celebrate the centenary of the 1911 Parliament Act, John Bercow, Speaker of the House of Commons, instigated a series of public lectures in which current parliamentarians assessed the careers and characters of parliamentary giants. The result was a sequence of fascinating appraisals covering a distinguished but eclectic array of politicians who made a name for themselves not only in the House of Commons but also throughout the country. The subjects of the lectures came from diverse backgrounds, advocated very different political philosophies and, indeed, some make surprising bedfellows. But they all had one thing in common: driven by a set of particular beliefs, they were prepared to do whatever was necessary in pursuit of their goals. From Nicholas Soames's warm, familial tribute to his grandfather Winston Churchill to Neil Kinnock's account of an affectionate - though sometimes fraught - relationship with Michael Foot, the roll-call of both lecturers and subjects is outstanding. With his subject sitting in the audience, Tristram Hunt delivers the lecture on Tony Benn; Shirley Williams looks at the life of Nancy Astor, the first woman to take her seat in Parliament; Philip Norton and Peter Tapsell tackle the towering figures of Enoch Powell and F. E. Smith; as an authority on his subject, Kenneth Morgan discusses David Lloyd George, while fellow historian Gordon Marsden speaks on Aneurin Bevan; Douglas Hurd reflects on the life of Iain Macleod; and Andrew Adonis and John Whittingdale both provide an insider's insight into the parliamentary lives of Roy Jenkins and Margaret Thatcher. With a foreword by John Bercow and an introduction by Philip Norton, this is an impressive collection of lectures delivered by expert speakers on the most eminent of parliamentarians.

But are some Indians more Indian than others? To answer this question, one that is central to the identity of every man, woman, and child who belongs to the modern Republic of India, eminent thinker and bestselling writer Shashi Tharoor explores hotly contested ideas of nationalism, patriotism, citizenship, and belonging. In the course of his study, he explains what nationalism is, and can be, reveals who is anti-national, what patriotism actually means, and explores the nature and future of Indian nationhood. He gives us a clear-sighted view of the forces working to undermine the 'idea of India' (a phrase coined by Rabindranath Tagore) that has evolved through history and which, in its modern form, was enshrined in India's Constitution by its founding fathers.

In this first-of-its-kind book, Jaimini Bhagwati analyses the key political, foreign policy and economic decisions of all the premiers from Jawaharlal Nehru to Narendra Modi, to understand how well they steered the nation on the path of progress and development. With his long experience in the corridors of power, Bhagwati reveals fascinating behind-the-scenes events and offers fresh insights into each PM's governance. For instance, Nehru, considered a 'socialist' by some, in fact acted according to the prevailing wisdom of highly regarded economists; why P.V. Using a novel framework, Bhagwati also assesses the PMs on the values of Character, Competence and Charisma, to measure their impact on India's story. Grand in sweep and thoroughly researched, this deeply engaging book sheds new light on independent India's history. As it critically examines whether our leaders always put the country first, The Promise of India provides an incisive overview of India's political culture and what keeps its democracy ticking.

For all of India's myths, stories and moral epics, Indian history remains a curiously unpeopled place. In Incarnations, Sunil Khilnani fills that space, recapturing the human dimension of how the world's largest democracy came to be. His trenchant portraits of emperors, warriors, philosophers, film stars and corporate titans—some famous, some unjustly forgotten—bring feeling, wry humour and uncommon insight to dilemmas that extend from ancient times to our own.

As the intellectual fountainhead of the ideology of Hindutva, which is in political ascendancy in India today, Vinayak Damodar Savarkar is undoubtedly one of the most contentious political thinkers and leaders of the twentieth century. Accounts of his eventful and stormy life have oscillated from eulogizing hagiographies to disparaging demonization. The truth, as always, lies somewhere in between and has unfortunately never been brought to light. Savarkar and his ideology stood as one of the strongest and most virulent opponents of Gandhi, his pacifist philosophy and the Indian National Congress. An alleged atheist and a staunch rationalist who opposed orthodox Hindu beliefs, encouraged inter-caste marriage and dining, and dismissed cow worship as mere superstition, Savarkar was, arguably, the most vocal political voice for the Hindu community through the entire course of India's freedom struggle. From the heady days of revolution and generating international support for the cause of India's freedom as a law student in London, Savarkar found himself arrested, unfairly tried for sedition, transported and incarcerated at the Cellular Jail, in the Andamans, for over a decade, where he underwent unimaginable torture. From being an optimistic advocate of Hindu-Muslim unity in his treatise on the 1857 War of Independence, what was it that transformed him in the Cellular Jail to a proponent of 'Hindutva', which viewed Muslims with suspicion? Drawing from a vast range of original archival documents across India and abroad, this biography in two parts-the first focusing on the years leading up to his incarceration and eventual release from the Kalapani-puts Savarkar, his life and philosophy in a new perspective and looks at the man with all his achievements and failings.

When P.V. Narasimha Rao became the unlikely prime minister of India in 1991, he inherited economic catastrophe, violent insurgencies and a nation adrift. Yet because he was unloved by his people and mistrusted by his own party—a minority in Parliament and ruling under the shadow of Sonia Gandhi—Rao lacked the mandate to combat these crises. Yet, Rao was not just able to last a full five years as Prime Minister, he reinvented India, at home and abroad. Few world leaders have achieved so much with so little power. With exclusive access to Rao's never-before-seen personal papers as well as over a hundred interviews, Vinay Sitapati's definitive biography tells the story of India's makeover in the 1990s and the story of the Deng Xiaoping-like figure who did it. Assuming power over an ossified, quasi-socialist economy burdened by inefficient industrial behemoths, Rao was instrumental in driving through a broad set of liberalizing economic reforms that transformed India. Rao's career is the ideal window through which to understand how India became a force in the global economy almost overnight. Sitapati traces Rao's life from a village in Telangana through his years in power and—afterward—his humiliation in retirement. Yet the book never loses sight of the inner man—his difficult childhood, his corruptions and love affairs, and his lingering loneliness. Meticulously researched and honestly told, this landmark political biography is a must-read for anyone interested in the man responsible for transforming India.

'Clearing my throat, I announce that I have an idea for my next book. My mother smiles encouragingly. My father shows no sign of having heard. He is immersed in an editorial, no doubt another scathing comment on the state of the nation. Bravely, I continue. I say I am thinking of writing a book about them.' Strictly Personal: Manmohan and Gursharan is that book. In 2004, Manmohan Singh became prime minister of India. Over the next ten years he led the country through opportunities and challenges, not without some controversy. But this is not that story. This is the story of what went before, and it is told by his daughter Daman Singh. It charts the journey of a young boy growing up in undivided India, battling family hardship to pursue his dream of higher education, determining his intellectual and moral compass and learning to live life on his own terms. It is equally about Gursharan Kaur, the woman with whom he made that life. Vivacious and talented Gursharan, the centre of the family and of the circle of friends they shared. And about their three daughters, Upinder, Daman and Amrit, growing up with a resilient mother and a workaholic father who stepped into the limelight. Based on conversations with her parents and hours spent in libraries and archives, this honest and affectionate memoir provides new insights into the former prime minister and his wife. Moving from Gah, Nowshera and Peshawar; through Amritsar, Patiala and Hoshiarpur; to Chandigarh, Cambridge and Oxford; then New York, Bombay and Geneva; and on to New Delhi, this intimate portrayal of two lives is also the history of a nation unfolding over half a century.

REVIEW OF HALF LION HOW P V NARASIMHA RAO TRANSFORMED INDIA EPUB

• I first read 'Lift Every Voice: Constructing Christian Theologies from the Underside' for my first theology class in seminary, and it has remained a book I've returned to again and again throughout my seminary career. One of the most impressive features of this text, articulated in the very title, is the diversity of voices contributing to the collection. The contributors include men and women, Asians, Africans, African-Americans, Caucasians, Hispanics and Native Americans. The contributors list reads like a who's who of modern liberation theology. The contributors are Steven Charleston, James Cone, Mary Potter Engel, Robert Fukada, Bonganjalo Goba, Jacquelyn Grant, Carter Heyward, Anita Hill, Ada Maria Isasi-Diaz, Kwok Pui-lan,

Mercy Amba Oduyoye, Mary Pellauer, Sharon Ringe, Young-chan Ro, Rosemary Radford Ruether, Andrea Smith, C.S. Song, Susan Brooke Thistlethwaite, Leo Treadway, and Victor Westhelle. Just a reading of this list should compel most persons interested in modern theology to want to explore this volume. One of the key elements in the approach to theology from these writers is that they intentionally seek not to speak to or for particular communities (or, even less, the whole of humanity) but rather with and on behalf, clearly identifying their own specific and eccentric starting points. The theologies herein presented are very contextual, as indeed all are, whether they admit to that or not. They are intentionally communal and praxis oriented, intended not for 'mere' thought and speculation, but to be put into concrete action in the world. The theologies are prophetic and constructive, viewing any and all sources with a critical suspicion that lessens the likelihood of oppression. They are open for revision and growth, and frequently not afraid to admit to not knowing. One thing obvious from this text is that there is no monolithic liberation theology -- rather, there are many theologies that fall under the heading of liberation, that look for the preferential option for the poor and oppressed of different character. However, all have significant elements in common, such that they can fit well together into the overall systematic framework Thistlethwaite and Engel provide here. The 'classic' categories of traditional systematics are employed, but with new emphasis. The doctrine of God is

not a metaphysical examination, but rather a questioning in a more practical sense of who God is for us. The editors move the section on eschatology, traditionally consider 'end things', forward, to show that we are always living in the midst of eschatology, and that we must concentrate on things now, not just a distant, ambiguous future. The editors combine the rest of the sections under the broader heading of 'Grace' -- creation, sin, Christology, community, healing, scripture. All these fall under the broad definition or influence of grace from God. There are more chapters devoted to dealing with scripture than any other topic; looking at the biblical texts from particular contexts (both the mujerista and the feminist perspectives) as well as the approach by Kwok Pui-lan of the Bible in non-biblical worlds. We in the Western world seem to forget how intrinsic the biblical text is to us, and how foreign it can be to non-Western readers. This is an important volume, an accessible and interesting collection of essays that provide a good introduction and a good overview of liberation theology for beginners and for more advanced readers.

- I have had this tape on order for months, and I was quite excited when it arrived. That excitement dwindled when I popped in the tape and found that it was not Roger Zelazny who read this story, as the printed cover stated. The story is still good, but the 'flavor' that was built up by Roger's interpretations of his characters was spoiled for me. Worth the listening, but not worth getting excited over.
