REVIEW OF COMPLETE BEADING JEWELLERY AND ACCESSORIES

- I read this in college as required reading many years ago. I have read the section on Logotherapy many times since. Very inspiring.

- I'm surprised there aren't a lot more reviews on this book. It might just be the best book I've ever read (and it's really short and easy to read). Viktor Frankl is an amazing man- a psychiatrist who lived in the concentration camps during WWII, and not only made it through and came out alive, but went on to touch many people's lives. The first half of the book, Viktor takes you through his experiences as a prisoner of the concentration camps. It's a unique perspective because he's really getting into what happens mentally to the prisoners and guards. Why do some continue to have the will to live despite everything? Why do others give up and let themselves die? Why do some prisoners show incredible cruelty toward their fellow prisoners, while some of the guards show compassion and kindness? Everything seems to hint to the fact that we are not just a product of our experiences. Even in a concentration camp where it seems like every freedom is stripped of the prisoner, the prisoner is

still free on some level to make choices about his own will to live and his own character. So what is it that causes different men in the same situation to make different choices? The second part of the book delves into the answers he came to for all of those questions, as Viktor explains his psychotherapy (or "logotherapy"). I'm not going to get into all of it now, because I'd rather just recommend you read it yourself. I am sure you will not be dissatisfied!
