- This book is explains web application development and configuration using Servlet and JSP technologies of Java. Comes with excellent test simulator CD.

- Ellen Dugan really proves her stuff, meaning she is the best kept secret in Llewellyn's mostly pretentious list of authors! She is the Garden Witch, like myself. I have been practicing since my Scott Cunningham days in the late 1980s. Ellen is the only author who can follow in his footsteps. This book covers all the basics and assumes we should have a little experience. This is fine with me. Indeed, it is as if Ellen knew my grandmother and her friends with many of these hints. I use pesticides according to experience. This is only common sense. Her theme gardens are wonderful and I have a few in my yard. This year, I am trying my first pumpkin garden. What an idea. The list of her shade garden plants are right on the money. The Craft section redefines Witch-craft for me. She is great with this section. The only problem with the book is the language she uses. This is fine for high school students. I hope many of them begin to work the garden at an early age. It is a lifetime reward. I am happy with Ellen's honesty here.
