REVIEW OF LIES UNSPOKEN FLAWED LOVE 1 LISA DE JONG

- This book is as beautiful, moving, riveting, and profound as its film version, and explains further the concept of reincarnation. A man returns to life on Earth as a dog...trying desperately to adjust to his new life, he is constantly beset by confusing flashbacks to his former life as a man. Why is he one of the few who remember? And should he go back home to find his human family? These questions and more are answered in "Fluke." I've read this book many times and still find it fascinating; it's written simply but beautifully, in language anyone can appreciate fully. The author obviously has a vivid mind and understands how the world looks through a dog's eyes; or perhaps he has been a dog in past lives. I know that I have. I highly recommend this lovely, exciting adventure.

- I found this one of the highest rated books on C a couple of years ago, so I bought it. I wanted an introduction to C before moving on to C++. I had already used "Practical C Programming" but became frustrated with it after its horrible explanation of pointers. Parts of this book are a little difficult as he uses some high-school level math(grin), and there are some pretty advanced functions with regards to sorting and linked lists, but the book gave me exactly what I needed, an intelligent, concise, and precise introduction to C. Following each section are numerous exercises to test what you learned. Think of this book as a great starting point, if you have moderate intelligence...
