REVIEW OF ROTORWAY RI 162F ENGINE

- Arthur Miller describes the historical situation of this play very well. He writes about the fate of every

single person and about the influence which people can have on other people. Reading the story you can witness how the whole village is plunging itself into misery. This play is written to sympathise with each character. It's tragic how innocent people get hunted because of little differences to the

majority of society. At the time where Arthur Miller wrote this play in America was the witch-hunt after communists. This state is almost a repetition of history. So we would say that it's worthy reading.

- This book is ok but youre better off taking notes from a class or another who already passed
