REVIEW OF CHARLES CAPPS SEEDTIME AND HARVEST

- One Hundred Years of Solitude is one of my two favorite pieces of fiction ever written (the other is Lolita in case you were wondering). Rarely do you find an author that has such an amazing handle on language. Marquez seems to write effortlessly and his prose is never pretentious or forced. The best thing about the book, however, is that it's never boring. I have to admit that it's the only fiction book that I've read three times (and I'll probably read it again in a few years).Over the the last eighteen years I have recommended this book to dozens of people and those that have taken the time to read it have always told me they loved it.

- Hailed by many as Márquez's finest literary work, One Hundred Years of Solitude tells the story of the Buendía family, who live and work in the South American jungle. Márquez unites great wit and comic timing with philosophy to produce the extraordinary book, and the combination of fantasy, magic and reality makes for enthralling reading.Laughter and tragedy, love and death are all bound together by Garcia's unique writing style. There is exploration and adventure, but always with a slight tinge of sadness and nostalgia. Márquez brings you into the Buendía family and lets you experience their joys and triumphs, failures and disappointments at first hand. You experience life through their eyes, and become intimately acquainted with their fears, hopes and dreams.In 1982 Márquez was awarded the Nobel Prize for Literature, and his other works include Love in the time of the Cholera and Of Love and Other Demons, as well as several short story collections. In all his books he invokes real emotion from the reader, and One Hundred Years of Solitude is no different. Whilst reading this book you are sent into an almost trance-like state, and become completely enveloped in the story. Fantasy and reality are intertwined so closely that it becomes impossible to tell the difference. Márquez also explores the notion of time, as the later generations in Macondo repeat the experiences of the first generations. The names people receive are also relevant-for example all 17 Aurelianos are articulate, solitary men, and all Jose Arcadios are enterprising and energetic.This is a challenging read-I found myself turning to the front page to look at the family tree many times. However, this is an excellent book, destined to become a classic. An unmissable read, by perhaps the greatest author of our times.
