### REVIEW OF NUTRIENT TIMING BY CHAD M KERKSICK

- Tales of Ivan Belkin is the breaking point in Pushkin's creative work. It's the border between Sentimentalist literature and Realistic one. The characters are much deeper than they could be looked for the first time! Tales of Ivan Belkin are something about a JOKE OF GENIUS, don't you see that? They all are about things that were important for the author in this horrible autumn, 1830, when they were written. These things are family, friendship, and love. Each tale is full of love, don't you think so?
- I teach a course at Rushmore University based on this book. By selecting their most important goals, analyzing how they spend their time now and looking for more efficient methods, my students are often able to increase the amount of time they spend on important activities by 30-40 hours a week while feeling better about themselves. If your life is out of control, read and apply this book!
