### REVIEW OF RESERVOIR ENGINEERING CRAFT HAWKINS SOLUTION

• Of course, I didn't like "She's Come Undone." Both books are about a girl who is disconnected from the world. Sittenfeld's novel was mildly entertaining, but if she'd used the words "definitive" or "definitively" one more time, I was going to throw the book in the toilet. Interesting narrative, but her jumps between Ault and life-after-Ault were annoying. For example, there was some minor suspense regarding "spring-cleaning," but a review of Lee's yearbook clearly shows that she was not thrown out... so much for that.

- Prep is self-indulgent to read, the protagonist is self centered, introspective to a point of obsession, and overall obsessed with external validation... But what teenager isn't? The novel will take you back in time to high school, and give other high school students a kick of perspective through (what I hope to be on the author's part) satire. It's a good story that entertains and brings to light the politics of race, gender, and class in a closed in setting.
