REVIEW OF ANSWERS FOR PROBLEMS MACROECONOMICS CASE FAIR OSTER

- i read this book when i was nine and it was brand new. It has always been on my list of wonderful stories. The bare bones of the story ARE true... wonderfully imagined by the author.And what is so compelling? It is the story of a boy who can not speak for himself... though there isn't much that gets by him. He is a stanger in a strange land. He has a wonderful, spectacular treasure right out in front of everybody and yet no one sees it. Then, in the thrilling climax, the horse's worth is recognised and our hero is established.Ahh, so close to the emotional situation any imaginative child finds her/himself in.This story is especially poignant after the events of September 11, 2001. What would Agba make of this time? He was a proud boy. Agba made me sensitive to this and friendly to his people my whole life long.kind regards

- MacLean's first novel, this is easily his best. It is a little different than his usual adventure-thrillers. This is a serious book about the naval war of World War II. The North Atlantic convoy runs saw some of the highest casualties during the war and MacLean puts the reader squarely in the middle of that icy Nordic hell. What happens when men are pushed far too far makes for some of the most gripping reading around.
