## REVIEW OF RICOH PRO 8210S 8220S 8210 8220

• I have bought this book twice before and I end up sharing it with someone else. This one is a gift. It is perfect for the beginner psychic. It is a work book and gently opens you up to several different options or approaches to access your abilities and the universal energy within each of us.

• This is a great book to give your preteen or teenager to read as it discusses a lot of the hard to talk about issues teens face today. It covers sexual matters which most adults find hard to talk about with their kids. Excellent reading.
