Keep in mind, reading reviews can aid you make educated choices concerning what to read following and can expose you to brand-new authors and styles you might not have actually thought about before.

REVIEW OF ARCPY AND ARCGIS GEOSPATIAL ANALYSIS WITH PYTHON TOMS SILAS

- There were three great books written about journeys to the American West in 1859: The best was Mark Twain's semi-fictional ROUGHING IT. The next best was Sir Richard F. Burton's THE CITY OF THE SAINTS, about a journey to see what Mormonism was all about and to meet with Brigham Young. That Horace Greeley's book should be third in this line-up is no disgrace. There is so much self-conscious mythmaking about the Old West that eyewitness accounts of intelligent observers are as rare as hen's teeth. Before the completion of the Trans-Continental Railroad, any journey across the Great Plains was attended by danger, discomfort, and memorable encounters. It is unfortunate that there so so few good accounts. Greeley was first and foremost a newspaper man. He had a sharp eye for what he thought would interest his readers (unlike Twain & Burton who wrote sub specie aeternitatis) and did not disappoint. His descriptions of the Indians, the rigors of the road, and the struggling communities a-borning west of the Platte make for fascinating reading. This is one of those great books to take along on a car journey through the Rockies and Great Plains.

- After the painful read that was this author's first vampire romance, I decided to give her another chance and read the second book in the trilogy. Now I'm starting to suspect that I'm a masochist. Nearly every problem the author had with her first book, she also had in this one. Bad character development, bad plot, no description, and absolutely no reason for the heroine, Jocelyn, to fall in love with Lucien, a.k.a. Tall, Tawny and Egotistical. To be absolutely fair, the author has improved slightly since her last book, or maybe she just got lucky. Lucien is a touch more interesting than the hero in the first book and Jocelyn is truly an independent woman, fighting her own battles. However, Lucien is still horribly overbearing and full of himself. It's hard to understand why Jocelyn didn't just put a stake through his heart instead of marrying him. Therein lies another problem. Jocelyn weathered scandal and rejection from cold, unfeeling parents to become the version of Mother Theresa that she is now. She goes out alone at night in the slums to help the hopeless, homeless and hapless. A woman out alone who's never had any problems until the Big Bad Evil Vampire comes along? Highly doubtful. Not to say that Jocelyn isn't a strong woman, she is, but all that strength just dries up and vanishes when Lucien comes into the picture. Suddenly she's leaning on him for everything and independence is a thing of the past. She puts up a token fight, but at one point he literally says that she "belongs to him" and she's just thrilled to accept that. Most readers today will feel like giving her a good shake to put some sense into her. Lucien is very much the kind of guy you'll find in any college bar today. Sure of himself and his irresistibility and unable to conceive of the fact that a woman might not want him. He's constantly in Jocelyn's personal space, touching and kissing her, just like a drunken frat guy. His constant references to Jocelyn as "my dove" only give credence to the inebriated college boy comparison. He kind of has the same appeal too, attractive and rakish, but no one in their right minds would want to marry him. The villain, Amadeus, is one of the biggest plot holes in the book. This is supposed to be a super-intelligent, evil vampire, but the reader learns very little about him. The "experiments" he does on humans are glossed over, only one example being presented. Much more description was called for there to make his evil believable. His intelligence is also called into question at the end. The "trick" Lucien uses to free Jocelyn is probably one of the lamest things ever attempted, and if Amadeus were really that intelligent, he wouldn't have fallen for it. He also would've seen Jocelyn's "trick" coming a mile away. There are rocks with more intelligence than Amadeus. As in the author's previous book, the world of vampires behind the veil sounds mind-numbingly boring. Amadeus can't be blamed for wanting to get out of there. Even Lucien found it dull, at one point turning the library into a harem. Which, by the way, directly contradicts many of the things the author has said about this world. According to her, everyone there lives in peace, free from passions and happy to pursue a life of scholarly study. Well, apparently that didn't apply to the three vampires who escaped, or Lucien who was quite obviously not happy there. And if

there was no passion, exactly what did Lucien fill this "harem" with? Scantly clad books? Continuity is not the author's strong point. Once again, if you're looking for a good vampire romance, skip this one. It's better than some out there, but it's still pretty bad stuff.
