REVIEW OF BUSINESS MARKETING CONNECTING STRATEGY RELATIONSHIPS AND LEARNING

- I first read this book at the suggestion of my elementary school librarian who knew me well enough to know that I would love it. I read it again after I had moved on to the high school. (My mother borrowed it for me as she continued to teach at the elementary school.) There came a day when the book was discarded as used. That cost me over twenty years of searching for it and finally locating it through Amazon. The review below speaks for me, too. What a marvelous book!

- Fascinating as a look into the symbol-laden mind of the highly learned James Joyce. The entire history of the world up until the first quarter of the twentieth century is here. Unfortunately, you have to spend years playing archaeologist to discover its hidden treasures. I've spent two years studying this thing, and will waste no more of my life on it: everything that Joyce has said in this has been said more eloquently and (obviously) more clearly elsewhere. NOTE: If you're undecided about this, read the first page. If you hate it, you'll hate the rest. If you love it, you'll love the rest. The quality of the writing stays fairly consistent.
