REVIEW OF ELEMENTARY SURVEYING AN INTRODUCTION TO GEOMATICS SOLUTIONS MANUAL

- The Heart is a Lonely Hunter is a very different sort of book. I've read quite a few books, and never one quite like it. One person I know compared it to the Bell Jar by Sylvia Plath because of the dark story line. The story is based upon the lives of 5 main characters, the majority of the story telling spent on the mute John Singer and the teenager Mick Kelly. Themes of alienation, isolation, intolerance, loneliness, and the fulfillment of dreams dominate the novel. The opposite of a superficial book, this story is about how people feel at their core and their dreams and aspirations. The writing is good, but just not very happy. The focus is more on how lonely each character feels and for what reasons. After reading it, The Heart is a Lonely Hunter forced me to think deeply. And I believe the title sums up what Carson McCullers was trying to say in her first novel.

- It's a stunning book that I really thank Oprah for reminding us to revisit. Such books only come along every once in a great while. Carson McCullers captures a beauty in sadness that leaches your soul and won't let go, but at the same time injects in you a spiritual growth. Few authors can capture that. "East of Eden" was a similar book now considered a classic. But what of today's authors? "Middlesex"? "Lovely Bones?" Both good but not quite on that same level. "My Fractured Life" is probably the closest argument, and even that you have to question because it is so contemporary. Truly "The Heart is a Lonely Hunter" is a book to be read - definitely for first timers and equally recommended for those revisiting. I don't deter you from reading today's authors. "My Fractured Life", "Secret Life of Bees", "Father Joe", "Middlesex"...there are so many wonderful writers today. BUT I think you will appreciate them even more if you academically inject a classic like "Lonely Hunter".
