REVIEW OF 12 BAR BLUES CHORDS SCALES FOR GUITAR DS MUSIC

- Kathy Bosworth has written a fluent book that is surely a gift of wisdom for all of us readers. She relays her mother's story commencing with a routine test not requiring a ride to or from the hospital. During the test, her mother has a stroke. The hospital makes a call to the family, which ignites an emotional bungee jumping between confusion and fearful

concern. In this incredible book, Kathy brings you full circle starting with the onset of the first stroke to life ending and new life beginning. Kathy describes with courageous honesty the basic and the complex of the "unknowns" that plague her and her brother. She gracefully paints a portrait of a family holding together, learning together, and confronting life changes together. This book is testament that one moment in time changes our lives forever. One of my especially liked sentences in this book is when Kathy's brother Ed says to her, "Kathy, you're not looking for more information on stokes, what you are looking for is someone with a crystal ball that will tell you what is going to happen". Kathy can't help but still search for someone - anyone that will tell her the hard sterile truth. Kathy braves observing her sweet mother become a person she didn't know and one who in return didn't know her. Every visit Kathy is not sure what she will see or hear. Will her mother be herself today or will she be a stranger? There are high points and very low points yet Kathy retains her sense of humor, her love, and her hunger for knowledge about this situation alive and kicking at all times. This is why this book is so indispensable. You learn with her and from her. Not only about the different types of

strokes but also the following consequences such as physical therapy, no resuscitation bracelets, nursing homes, dealing with assets, the government, and of course all of the physical and mental changes. This information is absolutely a must for every professional dealing with strokes. I certainly hope people will be able to find this book in every library in every city. Kathy approaches her book with courageous honesty. I found "Your

Mother has Suffered a Slight Stroke" a loving jewel of clarity into the living with and caring for a loved one who has had a stroke. Thank you, Kathy, for taking on such a difficult subject with such bravery and candor. Reviewed by Sherry Russell GMSA author of "Conquering the Mysteries and Lies of Grief
