## **REVIEW OF CABASSE AUDITORIUM MANUAL**

- I loved this book. It's been on my recommendation list forever, so I checked it out from the library but was put off by the lame synopsis on the back of the book. When I finally picked it up, I had a very hard time putting it down again. As some other reviewers pointed out, the details of the book aren't very fleshed out. You have to slowly build a picture of the different races in your head as you read through the book. This could be off-putting, but there is so much going on in the book that the main

characters' races are less important than their personalities, which are well developed. It is an interesting and unique world, with an exciting and different plot and heroine than I have

read recently. I could hardly put it down!

- My favorite book of all time. People of all faiths and no faith will find inspiration and insight in this marvelous book
