## **REVIEW OF INTERNATIONAL ECONOMICS THEORY AND POLICY 8TH EDITION**

- Having never read Joanna Trollope before, I had no idea on her writing style or sense of story-telling. However, after having just completed, "The Best of friends" Joanna Trollope illustrates a keen observation on the complexities of love and friendship. This novel focuses on the lives of two friends, each married to other people, whom after some eventful circumstances begin an affair. The result of this relationship is quietly told by Ms. Trollope who carefully allows us to observe each character without making judgements on whether their behavior is justified or not. What we are left here is a novel that shows us the effects of what happens when friends take a leap into being lovers and what effects this relationship takes upon family members and children. Joanna Trollope, a #1 best-selling novelist in

England, writes with the aura associated with the British - quiet, dignified, restrained, and in the end, ultimately satisfying.

- Written 50 years ago, this uniquely-styled novel, with multi-page single paragraph passages apparently used to render community scenes in a unified format seems to me to be a kind of impressionist painting in words, sliding fluidly between a smallish back country city on the edge of the desert and an island village in the upper reaches of the Amazon, with a motley population of mostly poor but proud peasants and indians, some living by smuggling contraband, others by the central elaborate [...] house where an old harp player leads a combo of local musicians. The hopes and fears, successes and failures, of the protagonists translate neither to heroes nor villains, and sad or happy events follow each other in timeless progression. The respected writer produced subsequent superior works, but this difficult effort still deserves patronage.
