## REVIEW OF AQUEOUS ENVIRONMENTAL GEOCHEMISTRY BY DONALD LANGMUIR

- Oh, God, this is like redneck/gun freak/conservative porn. Every Faux News talking point gets mentioned about a zillion times, there's the palpable fear of those dark-skinned furriners, and there's not even any zombies. This seems to be part of quite a little niche marketing; Reichwing apocalypse porn, usually written by the sort of officers you'd hate to serve under: think Ferret Face from M.A.S.H. It's marginally more

subtle than "The Turner Diaries", but the people this book is aimed at are probably screaming about socialism taking their...social....security at a town hall somewhere. This is one of the few books they'll probably ever read outside of Reader's Digest Condensed Books, so there's always the hope they might venture to the more sophisticated stylings of J.K. Rowling.

- I was expecting so much more after Dawn and this book was a disappointment. I know many people who never bothered to read the last book in the series because this one left a bad taste in their mouths. The characters just didn't connect, no empathy with them.
