REVIEW OF C PROGRAMMING BY BALAGURUSAMY 6TH EDITION

- Very good book that has some really good sections on IA documentation, planning navigation, and good tools for putting things to gether. All chapters have plenty examples of web sites so you can visualize what is being taught. This book was used in an IA class I took recently.

- This is a very good book to learn to speak and read hebrew so youcan follow along in your prayer book. However if you are as old asl am you really need dedicated study time.
