REVIEW OF MERCURY

OUTBOARD MANUAL BY SERIAL NUMBER

- A book club based in Tokyo will discuss this book at our next meeting. Has any other book club or group read this? We'd be interested in your comments.
- I was really surprised by how deep this book goes. This is another book I bought for my 6th grade guys who need the audio of the book to help them gain the comprehension of the story. I listened to it from my house to school (20 minute drive) and I didn't ever want to get out of my car!! The themes in this story are really moral and deep, kind of a bit much for younger students. This would be a good book for an older more experienced reader, even though the reading level is somewhat low, the tones and the morals in it are somewhat out there for the reading level. It will make you think.
