REVIEW OF CONCEPTUAL PHYSICS STUDY GUIDE

- Maybe it's the fact that I am around 40 years old, and I should have read it when I was 15 - but I couldn't really connect with the story. By the time it finished, I did not really care too much about what happened to each of them - Piggy, Ralph, Jack or anyone else. I suspect it is the fact that I could not believe the story as a whole - lots of little kids living on a deserted island surviving on fruit. It is quite well written though.
- In all honesty, "Lord of the Flies" is probably the most painfully boring story (and I use that word loosely) that I have ever had the misfortune of reading. The plot is simple and the characters are presented in a way that makes them difficult to enjoy reading about. The book is around 150 pages, which is strange, seeing that it took me about three weeks to finish because I had to will

my eyes to lurch over every page. Other than it being the most uninteresting book one can find, the characters make me equally angry. I realize just as well as the next person that they're stuck on an island and that they're all younger than me, but these children are just unimaginably dense throughout the story. They become so out of touch with reality that they even take to hunting down their leader. What am I supposed to find symbolic and interesting about that? People keep going on about how this book is teeming with symbolism, but I'm just not seeing it, just because you have a bunch of kids stranded on an island doesn't mean that that relates to religion, society, etc. Aside from the characters annoying me at a personal level, the way the author portrays them is even more ridiculous. If William Golding spent half as much time on the plot, and not describing the children and scenery, he may have had a half-decent story on his hands. If someone is looking for a decent book about survival, try "The Stand" by Stephen King, at least he made it interesting to read.
