REVIEW OF DISPENSING PHARMACY A PRACTICAL MANUAL

- Amazon won't tell you, and you will learn only after you pay for this Kindle title: it has no illustrations or photos and has regrouped the footnotes to the point of making them worthless. A very disappointing result for a fine book with great crime history relevance. This title should NOT be purchased for Kindle if you are expecting to receive an honest copy of the complete book! I will not trust other Kindle titles because unless you own a print copy of a Kindle title you will never know what was omitted, removed or edited to fit an obviously limited format.

- Helter Skelter is one of those books that leave you in dismay because you can't believe the logic in the Tate-LaBianca murders. The "family" is truly an unbelievable group of people that absolutely butchered for the begining Helter Skelter. I would strongly recomend it to anyone.
