Remember, reading testimonials can help you make informed choices concerning what to read next and can reveal you to brand-new writers and categories you may not have actually thought about in the past.

## **REVIEW OF ACS STUDY GUIDE FOR ORGANIC CHEMISTRY**

- I think you should read this book. Carolyn Keene has made this book exciting with a little bit of history along with it. This is a great book!
- What a pity that such a charming, aesthetically pleasing story as *The Lonely Doll* has become cannon fodder for overly zealous parents who are hellbent on political correctness. Previous reviewers have noted that the author, Dare Wright, was abused as a child and that the shadows of this abuse are present in the text itself. I submit that this is a bunch of baloney. By reading a nonexistent adult subtext into this sweet, simple book, many adults are depriving their children of a great classic. I adored it as a child, and my six-year-old daughter adores it too.
